# WHO WE ARE

**RR Engineering & Services** is a company that was founded in **2017**. Our team comprises highly skilled professionals who are passionate, dedicated, and experienced in the fields of engineering, technology, and business management. Each team member has accumulated over **15 to 20 years of professional experience**, working across various industries and market segments in both India and the Gulf region.

Our team's collective knowledge and experience have enabled us to accurately perceive and understand the industry and market dynamics within the Indian subcontinent. We coupled this understanding with our creative aspirations to conceive our vision and establish RR Engineering & Services.

We take pride in providing innovative solutions to our clients by leveraging our deep expertise in engineering, technology, and business management. Our commitment to excellence is reflected in our team's dedication to delivering projects on time, within budget, and to the highest standards. At RR Engineering & Services, we believe in building long-term relationships with our clients, based on mutual trust and respect, to ensure the continued success of our partnership.

## OUR TEAM EXPERTISE

- Complete design engineering section with experience engineering team for taking any type of EPC projects related to steel & power.
- Team of experienced skilled manpower with engineers, supervisors, technicians, operators for AMC jobs anywhere.
- We are tied up with full fledge workshop in Mancheswar Industrial State Bhubaneswar. with lathe, CNC cutting machine, milling, shaping, surface grinder etc to take up any type of job.
- We are tied up with Foundry along with Forging unit at Jagatpur.CTC

## MISSION

RR Engineering & Services sphere of activities encompasses Trading & Manufacturing, Site Fabrication , Erection and Commissioning of Mechanical items for Steel plants, cement, paper & pulp industries, Aluminum plants,

Furnaces, Batching plants for Glass, Ceramic Industries&Textiles Industries. Our Company Comprises of Qualified, Experienced & dedicated team of Engineers, Supervisors and technicians committed to safety, Quality, Time schedule and management of raw materials in line with the guide lines as laid down in latest of International Standards like ISO 9001:, ASME, etc.

We are committed to provide and /or facilitate comprehensive solutions in the core fields of Mechanical, Electrical, Automation, and Environment Technologies in the capacity of a Technology provider / Systems Integrator and/or a 'Value Added Reseller' and/or a Consultant.

Ensuring that employees are constantly trained and updated with the latest emerging technologies, know-how, tools and products in our areas of operation besides promoting and nurturing the core values spelt out in our vision with consistency.

## VISION

### Core Values

We at R.R Engineering & Services

- Ensure Quality, Reliability, Integrity and Value in all our actions, products and solutions.
- Constantly put our sincere and dedicated efforts towards achieving complete customer satisfaction at any cost.

### Core Proposes

- To explore and harness the human creativity towards achieving excellence in life.
- To address social needs without any expectation of returns.

## OUR ACTIVITY

- Design & Engineering, Reverse Engineering indigenously develop and Supply, Site Fabrication and Erection of Hopper, Duct, Duct Supports, Support Structures, Chutes, Stacks etc.
- Developing & Supply of any critical items relating the Crusher/Screen/Gear Box/Gear etc. by reverse engineering.
- Taking the Turnkey Project relating to material Handling (EPC).
- Taking up of AMC in Material Handling Equipments.
- Design, Supply, Site Fabrication and Erection of Water and Air Piping.
- Supply of Valves, pipes and Fittings related to Power Plants of Reputed Make. (Both IBR and non IBR)

- Supply and erection of Wear Resistance Liners (Rubber / Polymer Lining, Hardox or equivalent Lining) for Hopper, Chute or any part of equipment.
- Spares for All Crushers (Feeder Breaker, JAW, Cone, Gyratory, Hammer, and Impactor etc), Conveyor, Bucket Elevators, Apron Feeders, Ball Mill, Rod Mill, Separator, Screw Conveyors & Vibrating Screens.
- Hydraulic and Pneumatic Cylinder.
  - Hydraulic Seals (Machined and non Machined).
  - Pneumatic Seals. (Machined and non Machined).
- Rubber / Polymer items Gaskets, O-Rings etc.
- Specialized Products ( Teflon Seals, Teflon Gaskets, Viton Seals and any other high temperature resistance Seals)

## ENVISIONED FUTURE

- To become the preferred solutions provider within the combined markets of emerging Indian sub-continent & the Middle East region within those domains of engineering and technologies that requires a high degree of technical knowledge and expertise.
- To be recognized as a professional, responsible, reliable, proactive, intuitive and ideal entity for career seeking professionals, investors, principal technology providers as well as for the creative and intellectual individuals with an idea.
- Life assessment and life cycle management solutions for electrical & mechanical systems related to power generation and transmission.
- Consultancy services for all the related market sectors within the relevant industries, which includes studies, post-fault inspection & analysis, calibration, certification, independent body assessment, audit and training.
- Technical services on-site for all the related market sectors within the relevant industries, which include testing (Routine & Diagnostic), commissioning, project supervision, annual maintenance and repair.
- To have brought out the best in all our team members and thereby helping them to achieve excellence in their lives.
- To have made significant contributions to the welfare and benefit of society and community.

## OUR MARKET SECTORS

**Heavy Industries  
(Steel & Aluminum)**

**Oil & Gas**

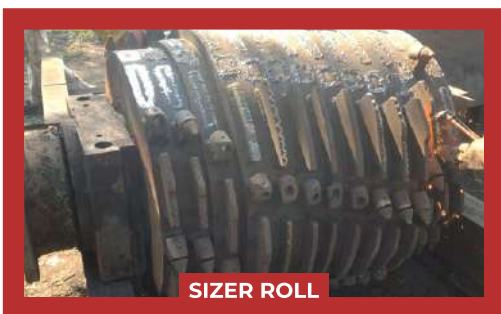

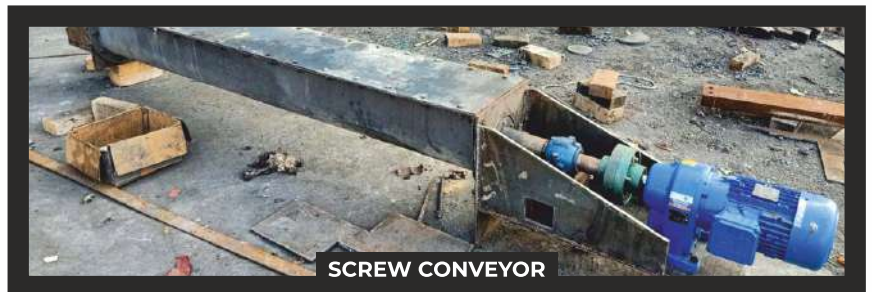

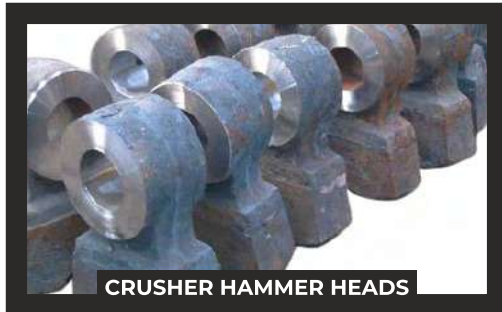

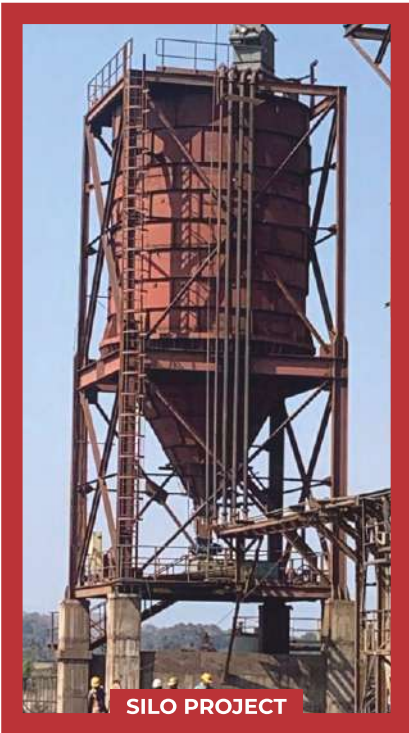

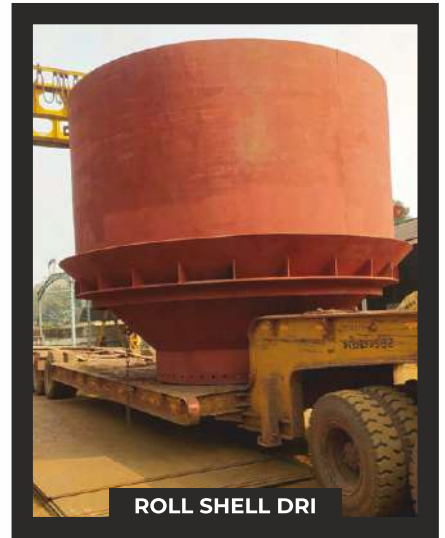

**Power Utilities**

## OUR CUSTOMER

- KJS Ahluwalia. Steel & Power Barbil.
- Singh Transport. Bilaspur
- Shapoorji Pallonji EPC. Pune
- Bhaskar Steel & Power. Sundargarh
- Jindal Steel & Power. Raigarh.
- Jindal Steel & Power. Anugul.
- Aditya Birla. Essel Minning
- Abhinav Construction. Korba.
- Goa Sponge & Power. Goa.
- Maithan Ispat. Jakhapura.
- Jaganath Steel & Power. Barbil.
- Rungta Steel & Mines. Barbil.
- Prakash Industries Ltd. Champa.
- Yazdani Steel & Power Ltd. Jajpur.
- PKV Refractory Pvt. Ltd. Karnataka.
- RHI Magnetia. Tangi
- OCL. Rajgangpur
- Bajrang Steel. Raipur
